

Our experienced team of professionals work closely with corporate and development clients to create a successful and engaging event in one of our unique venues. By choosing UTI to host an event, our clients are contributing to the care of our students who come from most marginalized and underprivileged community. They are also helping us to develop education and training programs for our communities. We provide tailored venue facility services that meet the 'diversified' training and catering needs of our clients.

UTI-Dhaka is the spontaneous choice of the customers for its green campus and its excellent training cum dining facility in the heart of Dhaka. It offers reasonably priced conference, meeting, seminar, workshop, training facility and meals, in a warm, relaxed and comfortable setting.

Our upcoming customized training programs have been specifically designed to meet the needs of today's evolving workplace, and help individuals develop their talents. We strive to provide training opportunities to communities that suffer from high unemployment.
